Bill,

I can't save emails as PDFs from my outlook 2007 or from outlook 365. Also, when I save my emails as text files, the attachments are not included. Is a text file format ok for the FOIA response? If so, how should I handle the email attachments?

Thanks,

Bill

Hi all,

I've created this SkyDrive folder as a place where we can share all of the documents being gathered in response to the Storis FOIA request, which is due this Friday 2/7. We can talk more about this final review process in our call tomorrow at 9 a.m. Pacific/Noon Eastern.

Feel free to access this folder to see if it's working for you. I'll drop the requests docs into it to test it out... let me know if any questions arise.

Bill Glenn
